

# The Garden Island.

ESTABLISHED 1904. VOL. 18. NO. 50.

LIHUE, KAUAI, TERRITORY OF HAWAII, TUESDAY, DECEMBER 12, 1922

SUBSCRIPTION RATES. \$2.50 PER YEAR 5 CENTS PER COPY

## NEW YEARS PLANS ARE COMPLETED

SIXTEEN RACES WILL MAKE MAIN PART OF THE PROGRAM

### Football Game Scheduled

CHILDREN'S SPORTS WILL KEEP YOUNGSTERS BUSY ALL DAY

Court Waiialeale of the Foresters are steadily going ahead in their plans for a big New Years Day celebration at Waipouli race track.

The program is now completed and a big day is promised for their patrons.

The Foresters promise a busy day from the time the quarter mile baby race starts in the morning until the football game is over in the afternoon.

One of the best racing programs yet arranged for any affair on Kauai will be their offering on New Years Day. Sixteen races are on the card including such novelty races as a hurdle race and a Roman race.

Another feature will be the cowboy relay race in which one man will ride four horses, changing every quarter mile. One of the rules of the Foresters in this race will be that all the horses must be bonafide cow ponies used on a ranch or plantation and all the riders must be cowboys.

Ben Corbett will be down on the program for a feature stunt as he is going to bulldog a steer from an automobile. He will also ride in the Roman race with Art Ortega.

One of the events which will be of interest to fishermen will be the net throwing contest for spread and distance. This is a new event and is bound to cause unusual interest among the spectators.

A complete program of children's sports will also be a part of the day. Foot racing, field sports and play ground baseball will be the main events of the children's sports.

Entries for the races are now being received by Johnny Fernandez.

The day's program is as follows:

- 1.—1-4 mile race (babies); 1st \$15, second \$5.
- 2.—3-8 mile race, free for all; first \$40, second \$10.
- 3.—3-4 mile race free for all; first \$60; second \$10.
- 4.—3-8 mile ladies race; CUP.
- 5.—1-2 mile race, Portuguese; first \$40, second \$10.
- 6.—1-2 mile race, Japanese; first \$40, second \$10.
- 7.—3-8 mile race, 3 year old colts; first \$30, second \$10.
- 8.—1-2 mile race, Filipinos; first \$15, second \$7.50.
- 9.—1-4 mile race, girls; first CUP.
- 10.—3-8 mile race, post entries; first \$15, second \$5.
- 11.—1 mile Mule race; first \$12.50, second \$5.
- 12.—5-8 mile race, free for all; first \$50, second \$10.
- 13.—1 mile race, free for all; first \$100, second \$25.
- 14.—1 mile cowboy relay race; first \$40, second \$5. (Four horses and one rider, rider changes horses at every quarter mile.)
- 15.—1-4 mile Roman race.
- 16.—1-8 mile hurdle race; first \$10; second \$5.
- 17.—50 yard wheelbarrow race, first \$5.
- 18.—Net throwing—for distance and spread; first \$10, second \$5.
- 19.—Musical chairs (cowboys and horses); first \$5.
- 20.—Bulldogging from an automobile.
- 21.—Children's sports—\$50 in prizes.
- 22.—Football at 3 o'clock—Kauai high school vs. Mahealani. Winner, cup.

### Sports and Contests for School Children

- 100 yard dash for boys—12 to 16 years.  
50 yard dash for girls—12 to 16 years.  
50 yard dash for girls—below 12 years.  
50 yard dash—for boys below 12 years.  
Basketball throw for distance—girls 12 to 16 years.  
Continued on Page Twelve

## NAWILIWILI CAN BE MADE BEST HARBOR IN HAWAIIAN ISLANDS

MAJ. W. A. JOHNSON IN REPORT PRAISES FACILITIES HERE

Major W. A. Johnson, who is head of the U. S. Engineers in Hawaii, is the authority for the statement that Nawiliwili harbor has greater facilities for development than any other harbor in the Hawaiian islands.

According to his statements, Nawiliwili has an inner and outer harbor and the breakwater that is now being constructed is, along the reef that separates the two.

The inner harbor when completed will be 1000 wide and 2000 feet long. This includes of course the area that will be dredged out when that work begins.

The recent additional appropriation is expected to complete the breakwater, but an additional appropriation will be needed to carry out the dredging of the harbor.

The estimated cost of the project in 1911 was \$3,086,000 with an annual appropriation of \$10,000 for maintenance.

## Paper Mulch System Proves Successful for K. F. & L. Co.

The paper mulching process that the Kauai Fruit & Land Co. has been using in its 80-acre field near the top of Wahiawa hill has proven so successful that they are now carrying on the work in one of the new fields near Koloa. This field is about 75 acres in extent and the paper mulch will be used over the entire field.

According to Walter McBryde, the Wahiawa field has always been troublesome as far as the weeds are concerned and the using of the paper mulch system has practically removed this trouble and the difference in the plants is plainly visible.

The using of the paper mulch system on the Koloa field is a bit more difficult owing to the fact that the plants are in the ground and are of fair size. This necessitates the cutting of holes for the plants, but owing to the fact that the plants are spaced a regular intervals this can be done before the paper is brought to the field. At the Wahiawa field strips of paper 300 feet long were used, but owing to the high wind that generally prevails at the Koloa field it is necessary to use strips 12 feet long to prevent the paper from tearing.

### MRS. FRANK FERNANDES DIES AT PAKALA

Mrs. Maria Baptista Fernandes died at her home in Pakala last week at the age of 60 years. Mrs. Fernandes was a native of Madeira and was among the first Portuguese to come to the islands.

She arrived here 37 years ago and has lived all that time on Kauai.

She is survived by her husband, Frank Fernandes, and ten children: Manuel, Antone, Frank, John, Joseph, Augustine, Louisa, Maria and Mrs. Philomena Costa.

Jas. D. Davidson, manager of C. B. Hofgaard & Co., Waimea, returned last Thursday morning from a visit to Honolulu.

### LIHUE UNION CHURCH

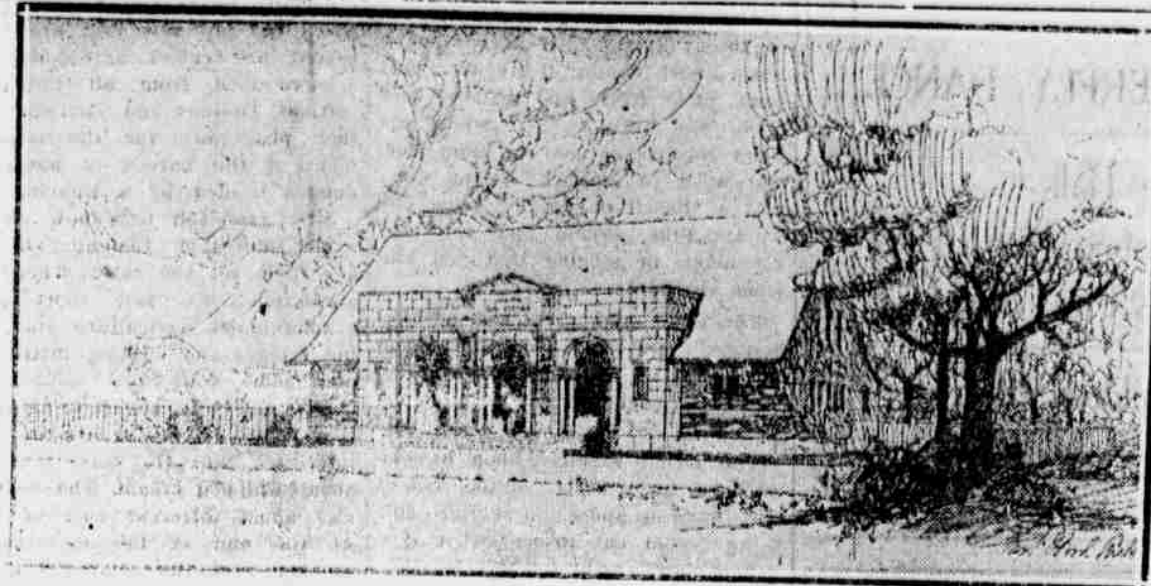

Regular services will be conducted in this church next Sunday morning with the pastor occupying the pulpit.

### PRACTICE CHRISTMAS CAROLS, PARISH HOUSE

The people of Lihue are invited to practice Christmas carols at the Memorial Parish house, Sunday evening, December 17, at 7 o'clock.

THE A. S. WILCOX Memorial Library, the magnificent \$75,000 gift of Mrs. A. S. Wilcox to the County of Kauai, which is now under construction at Lihue. The cut was made from the drawing of the architect, Hart Wood.

The plans call for a fireproof building of Hawaiian stone, excepting the front, which will be of cast stone. The library will hold 30,000 volumes and the plans have included in them a room for the Kauai Historical Society and also a rest room.

## Big Pake Dinner for Bill Jarrett

Yuen Kee restaurant at Kapaa, was the scene of an elaborate Chinese dinner last Thursday evening given by the citizens of Kapaa to Delegate-elect William P. Jarrett. The restaurant was beautifully decorated for the occasion and about one hundred guests attended. As the delegate remarked, during his speech, the dinner was a real treat, not that the 18 luau he already had since election were not good, but because anybody would welcome change.

Although he is known as "Silent Bill," Jarrett delivered a speech when called upon. He urged the people, among other things, to get together and present in writing what they thought he ought to try to secure for the territory in general and for them in particular, and not to expect him to remember thousands of things he is asked to work for. He also emphasized the fact that it is not the Democratic party, he is representing in Washington, but all the people in the territory.

Other speakers of the evening were Keakahi, known as the "Cannon Ball" of Kakaako, M. R. Aguiar Jr., J. Scharsch Jr., S. E. Lucas, M. G. Santos, Father Hubert and M. S. Henriques.

Mrs. Jarrett, wife of the delegate, and Mrs. Keakahi were also present.

## Kauai Telephonic Co. Opens New Building

The new building of the Kauai Telephonic Co. was formally opened last Friday evening and a large crowd inspected the new home of the company.

The building was brilliantly lighted and the new electric sign for the electric shop had a great fascination for many of the orientals to whom it was something entirely new.

The main floor was profusely decorated with flowers and an illuminated Christmas tree helped to decorate the show room. A stringed orchestra in the office gave an added touch and later in the evening, dancing was indulged in. Refreshments and punch were served to the company's guests all during the evening.

### FILIPINOS PLAN A BIG CELEBRATION

The program of the Filipino Rizal Day celebration at Waipouli track are practically complete. The program will open with a parade from Kapaa to the track in which the various Filipino organizations will enter floats.

After the parade a patriotic celebration will be held at which there will be speeches in the various Filipino dialects as well as English.

The sports will then follow, the patriotic celebration and foot races, boxing matches and a baseball game will furnish the amusement for the crowd the rest of the day.

## Dr. Emerson Speaks at Parish House

Dr. William P. Emerson delivered an address at the Lihue Memorial Parish house last Friday evening under the auspices of the Kauai Social Service Association. The subject of Dr. Emerson's address was "Malnutrition." A large number of stereopticon slides were used to illustrate his lecture and they were a great help to the audience in grasping the salient points of his address.

One of the surprises of the address was the fact that Dr. Emerson stated that there was just as much malnutrition among the children from the homes of the rich and well-to-do as there was among the poor. Poverty is not one of the prime causes of malnutrition.

He classified the causes of malnutrition under the following heads: Physical defects, lack of home control, over-fatigue, and improper feeding.

He then gave several specific instances where a child was under weight and investigation showed that its food ration was properly balanced and there was no physical defects and then further investigation showed that either its conditions of living were not healthful or its home situation was not happy.

A part of his address was given over to a plea to improve these conditions among the children and at the conclusion of his address Dr. Hagood, president of the Kauai Social Service Association, assured Dr. Emerson that nutrition classes would be started on the island and that an intensive campaign would be carried on.

## Makaweli to Have Great White Way

The main street of Makaweli will take on the appearance of Broadway or Market street along about Christmas time and it will be the only White Way on the island.

The reason of the change will be the artistic new lamp posts that are being put up by the plantation for the lighting of the street.

At the junction of the plantation street with the government road there will be one on each corner and then they will be spaced equidistant on alternate sides on the street.

The posts are made of concrete and are of artistic design. They will be surmounted by a glass fixture. When the posts are complete they will have an altogether pleasing appearance.

### NOTICE TO MOKIHANA CLUB MEMBERS

The Christmas bags for the children of Lihue and Hanalei schools will be filled at the Parish House on Thursday morning, December 14th. Work begins at 8:30. Your assistance is needed.

## High School Boy Fined for Speeding

Tadoshi Nagai, a student at Kauai high school, was fined \$25 and his license suspended for three months for reckless driving last Monday morning in Judge Hjorth's court.

Nagai was driving a Ford toward Lihue last Sunday evening and he struck a Ford belonging to Innocencio, a Filipino from Puhi, which was parked on the side of the road near the Lihue hospital crossing.

Innocencio was having motor trouble and had no lights on his car owing to the fact that he depended on the magneto for his lights. Nagai claimed that he did not see the car until he was almost on top of it, and could not avoid hitting it, but as he skidded completely around after doing so, the police claimed he must have been driving at a reckless speed.

Another point that the police brought out was the fact that there is a bright light at the crossing and the Ford car could be seen plainly if Nagai had been paying attention.

Nagai at first pleaded not guilty, but later changed his plea to guilty and the above fine was given.

## Frank Cox to Become Ford Dealer for Waimea

Announcement was made by A. F. Branson, representative of the Ford Motor Co. that another Ford dealer would be appointed on Kauai and that the new dealer was to be Frank Cox of Waimea.

The news that Frank Cox was to be the dealer was favorably received all over the island as Frank is one of the most popular men in the automobile business on Kauai.

The appointment of a new dealer will have no effect on the Nawiliwili Garage, the present dealer, except in the form of competition.

The new firm will occupy a new building to be built between the Bank of Bishop and the post office and will be known as the Waimea Motors Co.

### FORD TRUCK STARTS ON RAMPAGE

A curious accident that fortunately did not result seriously occurred last Friday evening in front of the Lihue store.

One of the light Ford trucks that was standing in the driveway behind the store, in some way started rolling toward the street, and in doing so, it had to make its way thru the crowd of Japanese men, women and children who were on their way to the opening of the Telephone building. The truck bowled a number of them over like ten-pins and when it stopped, two or three men were pinned under the truck.

The truck was lifted off them and on examination it was found that no one was injured. The accident had its amusing aspect when the truck started to bowl thru the crowd as it scattered them like so many quail.

## KAUAI RAILWAY CO. IMPROVES WHARF

PRESENT STRUCTURE IS BUILT SIXTEEN FEET ABOVE OLD ONE

### Is Concrete Throughout

CHANGE WILL NOW FACILITATE THE HANDLING OF FREIGHT

The Kauai Railway Co. is going steadily ahead with the improvements they are putting in at Port Allen in remodelling their landing wharf.

Formerly the wharf was about ten feet from the water and it was necessary to let the cars down on the wharf with a donkey engine, on account of the slope down to the wharf from the warehouse. When the cars were loaded, the donkey was again used to pull them back to the warehouse.

This necessitated the use of at least two donkey engines and also it was very dangerous on account of the cables in the yard and occasionally a car would get away and run down the incline and would plunge off the end of the wharf into the water.

With the changes that are now being put in the wharf has been raised 16 feet above the former wharf and a concrete approach built out to it. The wharf is now level with the warehouse and the donkey engines and cables will be done away with, for when the pier is completed, locomotives can be used in hauling the cars back and forth.

At present, one side of the wharf is partially completed and is now being used for the unloading of cargoes, but it will be at least two months before the entire project is finished. Concrete has been used throughout in the construction and the wharf has a pleasing and substantial appearance. The construction of the wharf is under the direction of Captain Leavitt, superintendent of the Kauai Railway Co.

The new mast for the derrick has arrived and it is indeed a massive timber. It is 65 feet long and 18 inches square. The booms of the derrick are built in proportion.

### PROF HAUCK TO MEET TEACHERS

A luncheon has been arranged for Wednesday noon, December 20, at the Tip Top Cafe, when the teachers of the east side of the island will have an opportunity to meet and hear Dr. A. A. Hauck, president of Punahou school.

A similar gathering is being arranged for Friday noon, December 22, at Waimea hotel for the school people on the west side.

Dr. Hauck comes to the Garden Island at the invitation of the county Y. M. C. A. committee. He recently visited Hawaii and spoke at a Father and Son banquet under the auspices of the association. He will be the special guest at the regular bi-monthly meeting of the county committee on next Tuesday evening.

Chairman H. D. Sloggett of the Kauai Chamber of Commerce has invited Dr. Hauck to address the chamber at its meeting next Thursday evening.

Wednesday evening the Hawaiian-born young people and their friends will meet Dr. Hauck in the Lihue Memorial Parish house.

### CHRISTMAS CANTATA

One of Dudley Buck's very best musical productions, "The Coming of the King," will be rendered by the augmented choir of the Lihue Union church on Christmas Eve, and judging from the general rehearsals it promises to be one of the best sacred musical treats that the island has been privileged to hear. This beautiful cantata contains the full Christmas story. The entire contents and the personnel will appear in next week's issue of the Garden Island. Reserve Sunday night, Christmas Eve, for this musical presentation.
